

From Generation to Generation

Established in 2014

OUR PROGRAMMES...

INTERGEN

What: Brings older and younger people together to learn and have fun.

Where: In their neighbourhood schools, secondary and primary.

Why: To help reduce the problems of under performance of pupils in schools, low aspirations of pupils and older people, loneliness of older people, and hostile intergenerational stereotypes. Create part time flexible jobs for older people.

IN FILMS TOGETHER

What: An intergenerational film festival using contemporary commercial films from all over Europe showing positive images of both young and old citizens.

Where: London and other UK cities 2016.

Why: To create opportunities for different generations to learn and have fun together and share the films widely.

The film festival is a partnership with colleagues in the Department of Health in Frankfurt, Germany, building on their award winning work developed over five years.

THE UNIVERSITY PROGRAMME

What: A supportive service for universities using older citizens living near the universities to welcome, befriend and mentor overseas students at our universities.

Where: University pilot site, North West England.

Why: To use the knowledge and skills of older people to provide support for overseas students at our universities and create part time jobs and visible and valued volunteering opportunities for older people.

This service builds on work of German colleagues in Dortmund.

INTERGEN OUT AND ABOUT

What: New opportunities for older and younger people to learn together outside school.

Where: Museums and allotments.

Why: To strengthen community bonds and extend opportunities to learn and have fun outside of school.

VISION

A United Kingdom where communities value the assets they have in younger and older people and they share time together, have fun, learn from and value each other.

MISSION

We are creating sustainable programmes to help young and old people come together so that they all benefit and have fun.
