

Intergen

THE INTERGEN WAY

DRIVEN BY
SCHOOLS WHO
KNOW WHAT
THEIR PUPILS
WOULD BENEFIT
FROM

THE INTERGEN
WAY WORKS
FOR EVERYONE
INVOLVED.

WHY IS IT NEEDED?

Our local communities are being increasingly challenged.

- Our schools are expected to continuously improve the education experience, achieve better numeracy and literacy results with rising costs and constrained budgets.
- Our senior citizens are living longer, and more often without close family in our more mobile times, and the social care budget is proving increasing inadequate.
- The two groups are often competing for scarcer resources in meeting their challenges.
- The Intergen Way provides a local approach for the two groups to cooperate together and successfully contribute to providing solutions to reduce the stress on resources and enhance the lives of teaching staff, pupils and older people.

FREE FOR ALL SCHOOLS

At long last the Intergen Way will be available to all schools in the UK. From September 2019 any school or group of schools can set up their own Intergen group with NO CHARGE to the schools.

Schools can be sure that The Intergen Way works and gives results for both pupils and the older people in their local community. The lives of both groups are enriched and school life enhanced for everyone there.

10,000 schools that could be involved in this pattern, promoting additional input into the education of:

OVER 1 MILLION PUPILS & 83,000 OLDER PEOPLE IN ENGLAND ALONE.

NO SILOS, NO ADDITIONAL COSTS TO THE SCHOOL OR ADULT SOCIAL CARE SERVICES.
